Mission and Vision

I am Hasan Wazid. A Proficient Front-end Developer and CMS expert with more than 3 years of experience delivering clean, functional, and user-friendly websites for my clients. My approach is to understand your needs and work collaboratively to achieve your goals. I have a proven track record of delivering projects on time within budget and to a high standard. I'm also very flexible and adaptable, able to work with clients from a range of different industries and backgrounds. My experience includes HTML, CSS, Sass, Bootstrap, Tailwind CSS, JavaScript, React, Next.js, and Redux, and I also have a wealth of skills in WordPress and Shopify.

Skills

- **Programming Language:** Javascript, Typescript.
- **Framework/libraries:** React, Redux, NextJS, Bootstrap, TailwindCss
- **CSS preprocessor:** BEM, SASS
- **Package managers:** NPM, Yarn
- **Platforms/tools:** Git & GitHub

Work Experience

Times IT Agency   Sylhet, Bangladesh
Junior Front-End Developer   February 2021 - Current

1. Collaborated with senior developers to implement responsive designs and ensure cross-browser compatibility.
2. Assisted in the integration of frontend components with backend APIs to enable seamless data flow.
3. Implemented and customized frontend frameworks such as Bootstrap and React to streamline development and maintain consistency.
4. Conducted code reviews and participated in team discussions to contribute ideas for continuous improvement.
5. Assisted in optimizing website performance and loading speed through code refactoring and image compression techniques.

Tiejet Company   Berlin, Germany
Senior WordPress Developer   January 2022 - September 2022

1. Leveraged a strong understanding of WordPress core to manipulate admin and theme components.
2. Designed responsive, mobile-first websites from design concepts.
3. Collaborated with end users on project specifications, strategy, and execution to build new WordPress pages and update existing ones.
4. Installed required plugins and additional coding to fit final design and functionality requirements.
5. Delivered quality commercial websites that met coding standards and cross-browser compatibility.

Projects

Jobfin Marketplace website   **GitHub** | **Live Link**

Key Features: 1 Jun 2023 - 20 Jun 2023

1. Utilize Tailwind CSS's utility-first approach to create a fully responsive design that looks great on all devices.
2. Implement advanced search and filtering options to allow users to easily find relevant job listings based on criteria such as location, job title, salary range, and job type.
3. Enable user authentication functionality to allow job seekers to create accounts, save job searches, and manage their job applications.
4. Provide detailed company profiles for employers to showcase their company culture, mission, and values.
5. Integrate communication channels such as messaging or contact forms to facilitate communication between job seekers and employers.

Mortgage Calculator app   **GitHub** | **Live Link**

Key Features: 10 October 2022 - 15 October 2022

1. In order to Setup this Project, Install React, Material-UI, ChartJS, and other packages via NPM.
2. Using Material-UI, create a consistent design system across my application.
3. Use Slider package of Material-UI to calculate Home Payment, Down Payment, Loan Payment, and Interest.
4. Utilized Chart.js customizable features to create visually appealing and informative charts that enhance user experience.
5. Use Form Control component of Material-UI to select Tenure of Bank Loan.
